*In the Victorian Era, beeswax was a symbol of friendship.*

**H**oneycomb Keepsakes was created by Coral Anika Theill in 1988 out of hope, a passion for life and people and a desire to create pure and lovely treasures for the home.

**H**oneycomb Keepsakes are all hand-poured of 100% pure beeswax in molds that have been collected from around the world. Some are original and many are collectors items, providing you with a unique treasure. The warm golden color and honey aroma add to their beauty. Keepsakes can be used to decorate your home in a variety of ways – hung on a wall or in a window, as a tree ornament or displayed on a stand.

**T**he melting point of beeswax is 142 degrees F. so keepsake ornaments can last for generations with only an occasional dusting and burnishing with a soft cloth. When used in candles, beeswax is long-burning and the full honey scent is released. Beeswax is the oldest and purest wax in the world.

**C**oral's Danish relatives and friends taught her a precious word when she visited them – “hyggelig” (hew ger li). It means warm, cozy, pleasant, comfortable and inviting. Each candle and keepsake is made with the wish that it will bring “hygge” to your life and home.

# Holiday Ornaments

In the late 1800s, handcrafted wax ornaments became very much a part of the Christmas tradition. Honeycomb Keepsake ornaments come with a gold cord or accent ribbon for hanging.
